Foreword

India is known for its rich heritage of textiles and costumes. The global interest and demand for Indian textile and craftsmanship has led to an emergence for huge apparel industry for domestic market and export. The large scale production of ready-to-wear clothing has led to setting up of manufacturing units and export houses, requiring trained professional to lead the design activity and product development and coordination. The Indian apparel industry is spreading and growing by leaps and bounds providing employment to over a million people.

In response to the above the subject FASHION STUDIES is being introduced at Senior Secondary level as an independent elective subject in the academic stream. A student will have the option to take this subject in combination with other subjects. The course portrays up-to-date basic concepts, techniques, application and some classroom practical. The publication in hand is the main course book, which covers all necessary information essential to understand the principles of 'Fashion Studies' included in the syllabus. Further, guidelines in project work will be developed to enable the teachers for effective transaction of curriculum.

The subject has been developed in collaboration with NIFT (National Institute of Fashion Technology, Delhi). I place on record the services rendered by Shri. P.K. Gera, Director General, NIFT. The NIFT faculty who have contributed as authors of various chapters are Sr. Prof. Banhi Jha, Dean and CBSE Project Coordinator, Professor Kripal Mathur, Project Anchor, Prof. Vandana Narang, Dr. Nilanjana Bairagi, Ms. Ashima Tiwari and Ms. Anu Jain. The initiatives taken by Dr. Sadhana Parashar, Prof. & Director (ART & I) and the efforts made by Dr. Kshipra Verma, Education Officer are highly appreciated in bringing out the publication.

I invite the comments and suggestions from the experts, teaching community to improve upon the curriculum, textual material and other related matter.

Preface

Fashion theory and practices are built on an academic foundation where history, anthropology, sociology, psychology and economics intermingle to shed light on clothing as one of the three most essential needs of the human race. It is a visual indicator of the cultural identity of a country.

Fashion is a dynamic force which influences lifestyle choices made by consumers. It drives international trends in a multitude of areas from apparel, accessories, automobiles, cuisine, wellness, vacations and more. Glamour notwithstanding, fashion is a serious global business with high financial stakes. The increasing references to Indian textiles, clothing and culture on international ramps are indicative of India being centre-stage on the global fashion map.

The current educational scenario provides students with a wide range of subjects that are informative and also encourage individual aptitude. Many want to pursue non-traditional careers where creativity, problem-solving and business acumen integrate into an exciting combination. Fashion Studies, introduced by CBSE at the 10+2 level as an elective academic subject, points in the direction of fashion as a creative and challenging career.

Fashion Studies offers insight into the components and processes of design, manufacturing, marketing in apparel and textiles. It encompasses the process from fibre to fabric, from concept to creation of garments. It provides an overview of fashion, introduces an understanding of fabrics and surface techniques, design fundamentals and elements of garment-making.

Fashion Studies is envisaged to help students to make an informed decision about their future goals.
